

These recordings of central works of the Viennese School, made between 1949 and 1965, are unique musical and historic documents. The first-rate interpreters predominantly come from the immediate circle around the composers, either as pupils of Schoenberg's or as acquaintances of the composers. With this degree of authenticity and thanks to manifold interpretational approaches, this anthology offers comprehensive first-hand insights into the Second Viennese School.

CD I ARNOLD SCHÖNBERG (1874-1951)
